

Class Pricing and FAQs

Cost of Class

Gwen's class price is set to reflect the nature of the local Belly Dance community as well as her own experience and expertise.

Weekly classes:

\$10/ session, OR, you may purchase 6 classes for \$50 (punchcards expire within 6 months of purchase date)

Private Lessons:

The best way to improve your skills as a bellydancer is through private lessons! In a private lesson, you and Gwen will be able to address specific issues and concerns in a supportive, at-home setting!

Gwen is available to teach private lessons in hour or half-hour time periods.

Note: Studio fees may apply if using a public space.

30 minute 1 on 1 session: \$35

60 minute 1 on 1 session: \$50

Private Lesson Package

4 lessons \$130, 6 lessons \$190, 8 lessons \$250

(Lessons in the package are good to be used within 6 months)

***If interested in semi-private lessons (2-3 people)- please contact Gwen. Separate pricing applies.

Please be aware that Gwen may charge travel fees if the private lesson is outside the local area.

FAQs

What do I wear to class?

Recommended wear includes yoga or exercise pants and supportive bra. Any kind of top you want to wear, or not wear, over that is fine.

Do I have to have dance experience to come to class?

Of course not! Unsure of where you fit? Try out Beginner Level 1 classes your first time.

Will there be males in class??

As an instructor and keeper of this ancient art form I never discourage anyone from learning. However, I have a rule of no bystanders. If you are in the class you must participate. If you are in the room you will be doing all exercises with the other class members. So yes, if there is a male that wants to learn they will be allowed in class; but they will be required to fully participate.

Is Bellydance hard?

Like any skill it is something that requires practice. You wouldn't expect to pick up an instrument and play a song the first time, likewise you shouldn't expect to learn how to dance without practice.

What is taking Bellydance going to do for me?

Bellydance has shaped the lives of dozens and dozens of women that I know personally. Giving them self-confidence, determination, boosting their self-image and fitness levels. It has put them in tune with their body and helped them find themselves. This beautiful art form brings out femininity in ways that you never would have thought. There isn't a way to explain how Bellydance can touch your life in just a few sentences. So in short...it will do more than you ever imagined.

Am I too old/young to take Bellydance?

No. Not ever! You are never too old or young to learn how to Bellydance. There are many different styles to suit each ability and stage in life. Once you learn the basics you can tailor a style to your own personality. Depending on the style Bellydance varies from very low impact to high intensity aerobic dance.
